STATE OF NEW HAMPSHIRE

TOWN OF NEW IPSWICH 1994 WARRANT

To the Inhabitants of the Town of New Ipswich in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Mascenic Regional High School in said New Ipswich on Tuesday, the eighth (8th) day of March, next at 7:00 of the clock in the forenoon, to act upon the following subjects:

Article 1. To choose all necessary Town Officials for the year ensuing:

Selectman (3 year term)
Assessor (3 year term)
Trustee of Trust Funds (3 year term)
Auditor (1 year term)
Planning Board (2) (3 year term)
Fire Chief (1 year term)
Sexton (1 year term)
Moderator (2 year term)
Supervisor of the Checklist (6 year term)

Ballot Questions:

1. Are you in favor of repealing the existing Zoning Ordinance in its entirety, as proposed by petition of the voters of the Town of New Ipswich, pursuant to the provisions of New Hampshire RSA 675:4?
2. Are you in favor of abolishing the Planning Board as proposed by petition of the voters of the Town of New Ipswich, pursuant to the provisions of New Hampshire RSA 673:18 II?

3. Are you in favor of adopting the following amendments to the Floodplain Development Ordinance? These changes are intended to bring the town into compliance with Federal rule changes.

Add to definition: "Recreational vehicle" means a vehicle which is (i) built on a single chassis; (ii) 400 square feet or less when measured at the largest horizontal projection; (iii) designed to be self-propelled or permanently towable by a light-duty truck, and (iv) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Add to Item VIII, 2., new section: Recreational vehicles placed on sites within Zones A1 - A30, AH and AE shall either (i) be on the site for fewer than 180 consecutive days, (ii) be fully licensed and ready for highway use, or (iii) meet all standards of Section 60, 3 (b) (1) of the National Flood Insurance Program Regulations and the elevation and anchoring requirements for "Manufactured Homes" in paragraph (c) (6) of Section 60.3.

The Town Meeting will be adjourned until Saturday the twelfth day of March, 1994, 10:00 of the clock in the forenoon at Mascenic Regional High School Auditorium to act upon the remaining articles:

Article 2. To see if the Town will vote to raise and appropriate the sum of \$1,227,453.00 which represents the operating budget. Said sum does not include special articles addressed. Recommended by the Board of Selectmen.

Article 3. Shall the Town accept the provisions of RSA 33:7 providing that any town at an annual meeting may adopt an article authorizing indefinitely, until authority has been rescinded, the Selectmen to issue tax anticipation notes? Recommended by the Board of Selectmen.

Article 4. Shall the Town accept the provisions of RSA 33:7 providing that any town at an annual meeting may adopt an article authorizing indefinitely, until authority has been rescinded, the Selectmen to administer or dispose of any real estate acquired by the

Town through Tax Collector's deed?
Recommended by the Board of Selectmen.

Article 5. Shall the Town accept the provisions of RSA 33:7 providing that any town at an annual meeting may adopt an article authorizing indefinitely, until authority has been rescinded, the Selectmen to apply for, accept and expend, without further action by the Town Meeting, unanticipated money from a State, Federal or other governmental unit or a private source which becomes available during the fiscal year? This authorization will remain in effect until rescinded by a vote of the municipal meeting. Recommended by the Board of Selectmen.

Article 6. Shall the Town accept the provisions of RSA 33:7 providing that any town at an annual meeting may adopt an article authorizing indefinitely, until authority has been rescinded, the Selectmen and Trustees of Trust Funds to accept, on behalf of the Town, any and all gifts, legacies and devises during the year, and to create trust funds for care and maintenance of the Town Cemeteries? Recommended by the Board of Selectmen.

Article 7. Shall the Town accept the provisions of RSA 31:95-e providing that any town at an annual meeting may adopt an article authorizing indefinitely, until authority has been rescinded, the Selectmen to accept gifts of real estate and personal property, other than cash, to the Town for any public purposes? Recommended by the Board of Selectmen.

Article 8. To see if the Town will adopt RSA 674:40-a delegating the Selectmen the authority to accept on behalf of the Town, any new highway which has been approved by the Planning Board. Recommended by the Board of Selectmen.

Article 9. To see if the Town will vote to raise and appropriate the sum of Four thousand seventy-

three dollars (\$4,073) for the support of the Monadnock Family Services. Recommended by the Board of Selectmen.

Article 10. To see if the Town will vote to raise and appropriate the sum of Five hundred dollars (\$500) to support the Monadnock Area Mediation Program. The Mediation Program will provide services to any New Ipswich family requesting said services free of charge. Recommended by the Board of Selectmen.

Article 11. To see if the Town will vote to raise and appropriate the sum of Fifteen thousand dollars (\$15,000) to perform water testing at the New Ipswich Landfill. This will be a non-lapsing amount per RSA 32:3, VI and will not lapse until the water testing is completed or in two years, whichever is less. Recommended by the Board of Selectmen.

Article 12. To see if the Town will vote to raise and appropriate the sum of Seventeen thousand dollars (\$17,000) for Engineering studies at the New Ipswich Landfill. This will be a non-lapsing account per RSA 32:3, VI and will not lapse until the study is completed or in two years, whichever is less. Recommended by the Board of Selectmen.

Article 13. To see if the Town will vote to raise and appropriate the sum of Fifteen thousand dollars (\$15,000) for the purpose of removal of the burnt tires at the New Ipswich Landfill and authorize the use/transfer of the December 31, 1993 fund balance in that amount for this purpose. Recommended by the Board of Selectmen.

Article 14. To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of landfill closure related expenses and raise and appropriate the sum of Thirty-five thousand dollars (\$35,000) to be placed in this fund and to authorize the

use/transfer of the December 31, 1993 fund balance in that amount for this purpose. Recommended by the Board of Selectmen.

Article 15. To see if the Town will vote to raise and appropriate the sum of Twenty thousand six hundred thirty-three dollars (\$20,633) for the purpose of hiring one (1) full time police officer to fill a vacant position in the Police Department. Recommended by the Board of Selectmen. (Breakdown is as follows for a period of eight (8) months for the year 1994, employment beginning May 1).

	<u>1994</u>	<u>1995</u>
Salary	\$ 14,135	\$ 21,203
BCBS/family plan	3,979	5,969
Dental	434	651
Medicare	205	307
NH Retirement	380	570
Uniform & Equipment	<u>1,500</u>	<u>2,250</u>
	\$ 20,633	\$ 30,950

Article 16. To see if the Town will vote to raise and appropriate the sum of Forty-four thousand dollars (\$44,000) for the purpose of replacing or repairing the town pool septic system, to reconstruct the town pool well, to provide safety barriers for the electrical unit in the girl's shower room at the town pool, to replace two lights on the basketball court, repair the filter house and to repair the pool skimmer, and to authorize the withdrawal of Thirty thousand dollars (\$30,000) from the Pool Capital Reserve Fund created for these purposes. The balance of Fourteen thousand dollars (\$14,000) is to come from general taxation. Recommended by the Board of Selectmen.

Article 17. To see if the Town will vote to raise and appropriate the sum of Seventy thousand dollars (\$70,000) for the purpose of resealing and reconstruction of town roads. Recommended by the Board of Selectmen.

- Article 18. To see if the Town will vote to raise and appropriate the sum of Fifty-eight thousand dollars (\$58,000) to purchase a new highway dump truck and authorize the withdrawal of Forty-three thousand dollars (\$43,000) from the Capital Reserve Fund created for this purpose. The balance of Fifteen thousand dollars (\$15,000) is to come from general taxation. Recommended by the Board of Selectmen.
- Article 19. To see if the Town will vote to raise and appropriate the sum of Six thousand five hundred dollars (\$6,500) for the purpose of purchasing and installing street signs in the town. Recommended by the Board of Selectmen.
- Article 20. To see if the Town will vote to raise and appropriate the sum of One hundred sixty thousand dollars (\$160,000) for the purpose of purchasing a fire engine pumper, to authorize the withdrawal of Seventy-one thousand dollars (\$71,000) from the Fire Truck Capital Reserve Fund created for this purpose and to authorize the issuance of not more than Eighty-nine thousand dollars (\$89,000) of bonds or notes in accordance with the provisions of RSA 33, and to authorize the Board of Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon. Recommended by the Board of Selectmen. (2/3 ballot vote required).
- Article 21. To see if the Town will vote to raise and appropriate the sum of Thirty thousand dollars (\$30,000) for the refurbishing and upgrade of the 1977 fire pumper to a water tanker to extend the service of the vehicle. Recommended by the Board of Selectmen.
- Article 22. To see if the Town will vote to establish a Capital Reserve Fund pursuant to RSA 35 for the revaluation of the town and to raise and appropriate the sum of Ten thousand dollars (\$10,000) towards this purpose, and appoint the Selectmen as agents to administer this fund. Recommended by the Board of Selectmen.

Article 23. To see if the Town will vote to raise and appropriate the sum of Twenty-three thousand dollars (\$23,000) to be added to the Capital Reserve Funds, as divided below, previously established. Recommended by the Board of Selectmen.

Highway Equipment	\$ 10,000
Police Cruiser	10,000
Pool	<u>3,000</u>
	\$ 23,000

Article 23. To see if the Town will vote to rescind the action taken by the 1989 Town Meeting authorizing the Board of Selectmen to institute mandatory recycling at the New Ipswich Landfill. Not recommended by the Board of Selectmen.

Article 24. To see if the Town will authorize the Selectmen to appoint an Economic Development Committee for the purpose of promoting economic development and to study the feasibility of entering into agreements with other towns for that purpose; and to also recommend to the Planning Board the feasibility of forming a local Economic Development Authority; or take any action relating thereto. Recommended by the Board of Selectmen.

Given under our hands and seal this 14th day of February, in the year of Our Lord nineteen hundred and ninety-four.

Board of Selectmen,

George H. Lawrence, Chairman

James E. Coffey

Annabel M. Aldrich

* Town Clerk - increase is due to municipal agent fees going through the town records and Town Clerk receiving a salary.

Assessing - increase is due to salary increase for the Board of Assessors and Secretary.

Planning - increase is due to final printing of the Master Plan and related maps.

Animal Control - increase is due to added hours for officers because of the rabies epidemic and for preventative medical shots for the officers.

Library - increase is due to their funding based on interest from investments, interest rates have been lower than previous years and they have had a number of repairs and work needed to their building and have asked the Town for assistance.

BALLOT QUESTION #1: "Are you in favor of repealing the existing New Ipswich Zoning Ordinance in its entirety, as proposed by petition by the voters of the Town of New Ipswich, pursuant to the provisions of New Hampshire RSA 675:4"?

YES-----	326
NO-----	387

BALLOT QUESTION #2: "Are you in favor of adopting the following amendment to Article XVI Section A of the New Ipswich Zoning Ordinance by adding the following:

A Certificate of Occupancy will be required by any person building or modifying a structure that involves septic

installation and/or fire inspection. The Building Permit Officer will notify the applicant in writing, when the application for a building permit is made, that the certificate must be obtained prior to the use of the building. The Board of Selectmen, or their appointee, shall issue the Certificate of Occupancy upon receipt of operational approval from the N.H. Water Supply and Pollution Control Commission and satisfactory completion of fire inspection by the New Ipswich Fire Department. Failure to comply with this regulation may result in fines up to twenty-five dollars (\$25.00) per day.
(If passed this amendment will become effective May 1, 1993.)

YES-----307
NO-----381

BALLOT QUESTION #3: "Are you in favor of adopting the Noise Ordinance (Breach of Peace), Parking Regulations and the Open Container Law as proposed by the Board of Selectmen, a copy of which is attached, pursuant to RSA 644:2 and RSA 175:1"?

YES-----426
NO-----276

The Town Meeting resumed on Saturday, March 13, 1993 to act on the remaining articles.

Oath of office was given by Matthew Glavey, Moderator, to the newly elected officers.

Selectman James Coffey made a motion to postpone the meeting, due to weather conditions and poor attendance.

Affirmative vote to postpone meeting to Saturday, March 20, 1993 at 10:00 a.m.

The Town Meeting commenced at 10:00 a.m. on Saturday, March 20, 1993.

Invocation--Rev. Hans Voss

Selectman George Lawrence honored Robert Kincaid for the many years he has served as Chief and member of the Fire Department.

Article 2. Affirmative vote as amended to raise and appropriate the sum of one million one hundred thirty-five thousand nine hundred eighty-five dollars (\$1,135,985.00) for general town operations.

Article 3. Affirmative vote to authorize the Board of Selectmen to borrow money in anticipation of the collection of taxes and to issue the same and on the credit of the town negotiable note.

Article 4. Affirmative vote to authorize the Selectmen to administer or dispose of any real estate acquired to the town through Tax Collector's deed.

Article 5. Affirmative vote to authorize the Selectmen to apply for and accept any federal and state grants available in 1993 and to further authorize the Selectmen to expend the funds for the purpose stated.

Article 6. Affirmative vote to authorize the Selectmen and Trustees of Trust Funds to accept, on behalf of the town, any and all gifts, legacies and devises during the year, and to create trust funds for care and maintenance of the Town Cemeteries.

Article 7. Affirmative vote to raise and appropriate the sum of Sixty thousand dollars (\$60,000.00) for the purpose of resealing and reconstruction of town roads.

Article 8. Affirmative vote to raise and appropriate the sum of Three thousand nine hundred eighty-six dollars (\$3,986.00) to support the Monadnock Family Services.

Article 9. Negative vote to abolish the existing Pool Capital Reserve account and transfer the entire balance of said account, approximately Twenty-nine thousand dollars (\$29,000.00) plus interest to the town General Fund.

Article 10. Negative vote to raise and appropriate the sum of Five thousand dollars (\$5,000.00) for the purpose of creating a Memorial Park and Pool Capital Reserve fund account.

Article 11. Affirmative vote to raise and appropriate the sum of Twenty-nine thousand dollars (\$29,000.00) to be applied to the Capital Reserve Fund accounts as follows:

Highway Truck	\$10,000.00
Police Cruiser	9,000.00
Fire Truck	<u>10,000.00</u>
	\$29,000.00

Article 12. Negative vote to authorize the Board of Selectmen to enter into a lease/purchase agreement for the purchase of a new fire pumper. This article needed a 2/3 vote to pass--Written ballot 178 votes cast.

YES-----116
NO-----62

Reconsidered--Written Ballot--169 votes cast

YES-----106

NO----- 63

Article 13. Negative vote to raise and appropriate the sum of Fifty-eight thousand dollars (\$58,000.00) to purchase a Highway dump truck.

Article 14. Affirmative vote to raise and appropriate the sum of One thousand forty-four dollars (\$1,044.00) for the purpose of repairing the pool decking.

Article 15. Affirmative vote to raise and appropriate the sum of Eighteen thousand three hundred ten dollars (\$18,310.00) to purchase and equip a new police cruiser and authorize the withdrawal of Twelve thousand dollars (\$12,000.00) from the Cruiser Capital Reserve Fund to be applied for said purpose. The balance of Six thousand three hundred ten dollars (\$6,310.00) to come from general taxation.

Article 16. Negative vote to raise and appropriate the sum of Twenty thousand three hundred twenty-two dollars (\$20,322.00) for the purpose of hiring a full time officer to fill a vacant position in the Police Department. Request secret ballot.

YES-----75

NO-----83

Article 17. Affirmative vote to raise and appropriate the sum of Six thousand dollars (\$6,000.00) for the purpose of removing the underground tanks at the Highway Garage and Fire Station and to purchase two (2) smaller above ground tanks and housing for same at the Fire Station.

Article 18. Affirmative vote as amended to close subject to gates and bars Robbins Road from junction of Poor Farm Road to the residence of Craig Dudley, pursuant to RSA 231:45.

Moderator Matthew Glavey adjourned the meeting at 1:55 p.m.

AUDIT 1993 REPORT

In planning and performing our audit of the town of New Ipswich for the year ended December 31, 1992, we considered the town's internal control structure in order to determine the scope of our auditing procedures for the purpose of expressing our opinion on the financial statements. Our review of these systems was not intended to provide assurance on the internal control structure and should not be relied on for that purpose.

Under the standards established by the American Institute of Certified Public Accountants, reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the town's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities, in amounts that would be material in relation to the financial statements being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might constitute reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above.

During the course of our review, the following condition was noted that was considered to be a material weakness as defined above:

General Accounting Records

To implement previous auditors' recommendations, the town, during the year, took steps to institute a change from the cash basis to the modified accrual basis of accounting. While we also encourage the town to proceed in this direction, accounting records supplied to us for audit on February 8, 1993, contained numerous errors.

As a result of these misstatements we were not able to use the town's general ledger and had to spend additional time in compiling the figures to allow us to complete the audit of the

financial statements.

Based on discussions with town personnel, there appears to be a lack of oversight of the general ledger in that two individuals are responsible for parts of this record. The Treasurer keeps revenue records and the Administrative Assistant maintains the appropriation side. No one reconciled the overall ledger during the year and as a result, errors were not detected in the normal course of business. This point of control is critical to the accuracy of the town's financial records and the financial statements which are a product thereof.

While it was not possible to provide the town's accounting personnel with training in these procedures during the course of our audit, we very strongly recommend that consideration be given to providing for some follow up. We would be pleased to work with town personnel to develop appropriate control procedures and to provide training as may be needed.

Also, the following conditions were noted that we do not consider to be material weaknesses:

TAX COLLECTOR

Notification of Registrar of Deeds When Full Redemption is Made

RSA 80:70 states in part that "when full redemption is made, the tax collector shall within 30 days after redemption notify the register of deeds of the act..." During our testing of the Tax Collector's compliance with this RSA it was noted that in some instances the Registrar was being notified of the full redemption in excess of 60-149 days of the town.

We recommend that the Tax Collector notify the Registrar of full redemption within the 30 days as required by New Hampshire RSAs.

Notice of Tax Delinquencies and Unredeemed Tax Liens

State of New Hampshire Department of Revenue Administration Administrative Rule 506.07 states in part that "this notice shall be mailed to the person taxed or to the current owner and shall advise the taxpayer of all outstanding tax delinquencies and tax liens affecting his/her real estate." During our testing of the town's compliance with this rule it was discovered that this notice was sent 170 days after the current year's property taxes became delinquent instead of the 90 days as required.

We strongly recommend this rule be complied with because it could possibly affect future potential deedings of properties. We also note that this ruling allows for the option of including this notice on the face of the tax bill to be in compliance.

TOWN CLERK

Our testing of the Motor Vehicle permits noted several instances in which the permit fees were not calculated correctly. It would appear that, in some instances, verification procedures are not adequate or have not been performed.

We recommend that procedures be improved to ensure the accuracy of the charges.

GENERAL FIXED ASSETS

Like most communities in New Hampshire, the town of New Ipswich does not maintain formal accounting records for its fixed assets, as required by generally accepted government accounting principles. While the maintenance of these records is not a critical issue, except for compliance purposes, when assets are purchased with Federal funds, maintaining an inventory of fixed assets for insurance and internal control purposes is important. Based on our testing, it did not appear that the town had an adequate record of its fixed assets or that inventories were periodically taken or verified for accuracy as to the existence, age, condition, and location of the town's fixed assets. Without some routine and internal control procedures, it would be possible in such a system for errors and irregularities to go undetected in the normal course of operations.

This report is intended solely for the information and use of management and others within the administration. This restriction is not intended to limit distribution of this report, which is a matter of public record.

Plodzick and Sanderson Professional Association

TOWN AUDITOR 1993 REPORT

An annual year end audit has been conducted the last few years by a professional association. I have recommended that this practice be continued, as many new procedures and guidelines are being recommended or mandated that require more professional knowledge. Although I understand general audit procedures and feel comfortable in performing on a general basis, I am not a registered CPA and therefore feel it is in the best interest of the town to continue soliciting the service of year end audits by professionals. I feel the association of Plodzik and Sanderson excel in this capacity.

As in the past, I conduct a quarterly audit, more particularly to verify the accuracy of income and disbursements. I also conduct a more thorough audit of the Trustees of the Trust Funds as they usually like to submit their report to the state before the professional audit is conducted and they, of course, verify the accuracy of this.

In this respect I wish to commend the Trustees of the Trust Funds for keeping very accurate records of your funds and I am sure that new methods will be adopted to consolidate some of these funds for easier recording purpose.

As in the past, I accumulate materials needed for the state to set the tax rate and actually calculate it myself before we accept their rate to make certain of their accuracy.

Again, it has been a pleasure to serve as your Town Auditor.

Respectfully submitted,
Larry Ackerson, Town Auditor

TOWN CLERK'S REPORT **FOR YEAR ENDING DECEMBER 31, 1993**

	<u>Total Receipts</u>	<u>Submitted to Treasurer</u>
Automobile Registrations	\$246,619.00	\$246,619.00
Dog Licenses	1,705.50	1,705.50

BOARD OF ASSESSORS

1993 REPORT

After finalizing the abatements from 1992 in January and February, we began inspecting the new homes built during the last year. After that, we reviewed the inventory of taxable property forms and began picking up any changes. Meeting two nights a week, this process takes us well into the summer months.

We made a concerned effort to work on the "Under Construction" properties this year. The list may contain from 100 to 175 under construction properties in any given year. Many phone calls were made to property owners whose homes were listed as being incomplete. From those conversations we determined whether or not a site inspection was necessary, or if the percentage of completion could be changed on the property assessment card.

We also reviewed gravel pits to determine which ones were on property having current use status. The current use laws state that gravel pits are not allowed on property in current use. From a list of twenty-two known gravel pits in town, only five were on property in current use, and so were removed.

Respectfully submitted,
T. Scott Morris, Chairman

BOARD OF SELECTMEN

1993 REPORT

For the first half, 1993 was at the slow economic pace which had been previously experienced by our town and the surrounding area in general. During the last half, there were signs of an improved economy with tax monies being received on a larger scale and requests for welfare assistance and help in many areas stabilizing.

Unfortunately when the economy is bad the requests and demands for government services increase and it becomes a problem trying to determine what is in the best interests of the town. We are happy to report that with careful planning on the part of the various boards and departments the total operating budget kept in check with a limited amount of overspending.

Since the Police Department was requested to provide extra services beyond the regular routine in a number of circumstances their budget was exceeded by a larger percentage but not as much as was anticipated. In this year's warrant there is a request to hire an additional officer. It is felt that if voters see fit to take this action the town will receive more expanded coverage and reduce the amount spent at present for part time and on call duty. It should also reduce the amount of response time now experienced by people with problems.

One of the most significant highlights of the year was the implementation of a town numbering system. Through the efforts of Jeff MacGillivray, Ed Carter and others, we can now provide faster response in emergencies eliminating the guesswork experienced in the past. Unfortunately not all numbers have been posted so that they may be seen. We urge you to do this if you haven't as it could make a difference in a life or death situation.

The budget for 1994 has been prepared with much input and thought from department heads, other employees and volunteers in town government and most importantly many citizens. We as a board have tried to prioritize items which we feel are needed to keep our town moving forward. We are faced with many future problems the most significant being closure of the present landfill which is a very costly venture. This year is the first in which the situation is addressed by creating a reserve for that purpose. From their report you will note that the committee has been very busy in investigating this issue.

In 1994 by careful management we hope to be able to provide you the citizens with quality government and services. The stabilization of the tax rate depends on what you as voters spend at the School District and Town Meetings.

In closing we would like to thank all of the town employees and the various boards for the cooperation exhibited during 1993. We would be remiss if we did not thank all the volunteers for the countless hours donated to the cause of truly making New Ipswich a better town to live in.

Respectfully submitted,
George H. Lawrence, Chairman
James E. Coffey
Annabel Aldrich

POLICE DEPARTMENT

1993 REPORT

Our department experienced many changes in 1993 which have been an asset to the police department.

In May, the department was very fortunate to hire Officer Steven Duval of Jaffrey, NH, to fill the vacant position left by Officer Blake. Officer Duval is a true asset to this department. His knowledge in law enforcement is one of his outstanding qualities. His experience in teaching has allowed him to become certified by the State of New Hampshire as a D.A.R.E. Instructor. Officer Duval is currently teaching the D.A.R.E. program which is an eighteen week program one day a week, to the students at the Boynton Middle School. This is the very first time the police department has had this benefit. As a department we value the knowledge this program instills in these children. We feel it is very important and will be beneficial to your children as they grow up in a world which is unpredictable. The program has been going well and we look forward to the program expanding in the years to come.

The department was also fortunate to hire three additional part time police officers. Officers Kris Thibault, Mike Walker and Terry Colls were appointed this year. They graduated from the New Hampshire Police Standards and Training Council part time officer's school. These additional officers have been a great help in filling some of our vacant shifts due to our usual manpower problem.

This year it was the opinion of the area chiefs that the area had a need for a tactical response team. Sgt. Wagner of this department, and supervisor of this team, received training from New Hampshire Police Standards and Training Council in tactical response. This team has been formed with officers from the area police departments. They had many hours of training working together as a team in this field. Their experience and knowledge was vital to all of us when the department was called upon to serve and protect a family in need at an extremely dangerous time in their lives. This situation proved to me how well the departments work together in a crisis situation. The training these officers have received during their career in law enforcement surfaced during this situation and was a true benefit to themselves and to the family we protected.

Again this year, we worked closely with Ellen Gardent of the Mediation Program. Ellen has worked with several families in town and the program has served to be beneficial. If any family is experiencing difficulties and would like more information regarding this program, please stop into the police department for some brochures.

The department would like to thank a New Ipswich family, who wishes to remain anonymous, for their very generous donation to the police department for the purchase of needed equipment. One item purchased was a D.W.I. video camera for the police cruiser. Thank you!!!

This year, under the instruction of the Board of Selectpersons, a Safety Committee for the town was formed with a representative from each department. The committee meets about once a month to discuss safety issues pertaining to the job and the building which the department occupies. Members of the New Hampshire Municipal Association have been present at these meetings. When the committee met at the police department, a safety issue regarding the open concept of the general business office and communications area was discussed. It was strongly recommended by the Municipal Association that this area be enclosed to ensure the safety of the town employees due to the types of people and situations the department becomes involved in. We have an estimated cost figure in our 1994 budget for this renovation. If this budget is approved, we will be soliciting bids for this program.

Once again, we would like to thank the area departments for their assistance during the year. As Chief of Police, it is gratifying to see the departments working so well together. Also, thank you to the Board of Selectpersons and to the town office staff for all their help.

As every year, the following is a breakdown of calls handled and received by the New Ipswich Police Department. A total of 14,010 calls were received for the year. Of those, 12,333 were of a miscellaneous nature. The breakdown of the remaining number of calls is as follows:

Untimely Death	4	Rape	1
Civil Standby	52	OHRV Complaint	7
See Complainant	77	MV Complaint	67
Burglary	23	MV Accident	85
Alarm	55	Disturbance	69
Assist Motorist	45	Vandalism	52
Stolen MV	2	Wrecker Request	31
MV Stops	754	Domestic	26
Abandoned MV	52	Shots Fired	25
Suspicious MV	41	Bomb	1

Arrests	60	DWI Arrests	9
Unwanted Subject	5	JV Problem	22
Witness Protection	2	Theft	22
Mutual Aid	88	911 Trace Calls	19
Information Calls	2385	Miscellaneous	4013

There were 257 cases brought before the Jaffrey-Peterborough District Court of which 87 cases were criminal and 170 motor vehicle summons issues to motorists. There were 300 warnings issued to motorists for the year.

Respectfully submitted,
Raymond D. Brodley, Chief of Police

ANIMAL CONTROL OFFICER 1993 REPORT

"Accomplishments" is the word that comes to mind when I think back over this past year.

With the help of monetary labor and material donations by local townspeople, a structure has been erected around the kennel. Along with the building, water and electricity has been supplied. No longer will the animals be placed in the kennel and be at the mercy of nature's elements such as rain, wind, snow, etc. Once again I would like to thank those that made this necessity a reality! Your donation is very much appreciated.

Dog registrations totaled 308 this year. Is this a representation of population? It's not as accurate as it could and should be. At the time of registration, a tag and copy of the registration are given to the owner. Please be sure to attach the tag to your dog's collar. Should your dog wander off or get lost, this tag will expedite its return home, as well as letting authorities know that your pet has been inoculated for rabies. So please inoculate and register your dogs, affix the tags to their collar, and observe the town leash law.

The following is a breakdown of calls received for the year.

167 DOG COMPLAINTS - consisting of strays, running at large, barking, chasing cars, vicious, etc.

106 RACCOON COMPLAINTS - these complaints range from sick

acting raccoons, to pets and humans being attacked.

- 57 STRAY DOGS - this is the total amount of dogs that were picked up and placed in the town kennel.
- 45 DEAD ANIMALS - these animals were picked up mainly from our roadways and consisted of dogs, cats, coyotes, skunks, raccoons, beaver, deer, fox, opossum, woodchuck, geese and other fowl.
- 27 MISSING DOGS - please remember to register your dog and abide by the leash law for your pet's protection.
- 26 CAT COMPLAINTS - REMEMBER: having your cat inoculated for rabies is now the law.
- 10 MISSING/LOST CATS - if you report your pet missing and it returns home, please be sure to notify us that it has returned home.
- 9 SKUNK COMPLAINTS

Seven animals were taken to Concord to be tested for the rabies virus. Three of these animals tested positive.

Eight people in town were treated for post-exposure to rabies. Should you see an animal that is unfamiliar to you, domestic or wild, please do not come in contact with it. The animals that were responsible for these exposures were raccoons and cats/kittens. Please be sure to remind your children not to have any contact with any unfamiliar animals for their safety.

- 8 DOG BITES - you are responsible for damages your dog or other animals may cause. Please restrain your pet.
- 4 CAT BITES - resist the urge to handle stray or feral cats/kittens, for this simple reason and for the possibility of rabies.
- 11 ORDERS TO ABATE - were served to residents.

Fourteen Dogs were handed over to the Humane Society. If your dog is missing, report it to the Animal Control Officer

through the Police Department.

Some miscellaneous animal complaints that were received during the year are as follows:

BAT	-	3	MOOSE	-	2
BEAR	-	1	OPOSSUM	-	1
BEAVER	-	5	PIG	-	3
COW	-	4	SKUNK	-	9
COYOTE	-	4	SNAKE	-	2
FOX	-	7	TURKEY	-	1
GEESE	-	7	WOODCHUCK	-	2
HORSES	-	7			

As a final note, with the mid-Atlantic strain of rabies now in our area, I must stress the importance of having all your animals immunized. Contact your vet to answer any questions that you may have.

I would like to thank all the residents who have cooperated with us during this past year. Your cooperation is very much appreciated.

Respectfully submitted,
Greg Cain, Animal Control Officer

HIGHWAY DEPARTMENT 1993 REPORT

Another year gone by, and along with the day to day activities, the department has been very busy with projects to improve our road network. Highlighting some of the work accomplished is as follows: Recycled with calcium chloride and new gravels on Porter Hill, Kolb, part of Perry, Taylor, Ashlawn Farm, part of Wheeler, and part of Country Road. These roads were ditched out, big rocks pulled out, culverts replaced where needed, and then recycled. These roads will be asphalted in 1994 to complete the road construction process.

We will be asking for some extra money in the form of an article to install hot bituminous paving to the recycled roads which is expensive, but will give us years of trouble free use. It is hoped that this system of rebuilding roads will work out as the total overall cost is much lower than a total rebuilt road using all new gravels.

Our other major projects included ditching, pulling big rocks, shimming and sealing South Road, Nashua Road, Davis Village, upper Ashby, Manley, Willard and Page Hill for a total distance completed of approximately 4.5 miles.

Other work completed is we crushed 5,000 yards of gravel and distributed it on dirt roads, made 1,800 yards of pugmill and shimmed roads to be sealed, screened 3,000 yards of sand for sealing and winter sand, applied liquid calcium on dirt roads, along with miscellaneous items like installing culverts, guardrails, cutting brush, patching, grading, plowing and sanding.

The tentative schedule for resealing in 1994 is Ypya, Cutter, Locke, Whittemore, Tricnit, part of Finn Hill, lower Ashby, Mason, Perry and Thayer, for a total distance of 5.87 miles.

There will be a proposed warrant article to begin asphaltting dirt roads. I really hope this passes, as I feel the dirt roads require more money overall to maintain than tar ones, and not too many people enjoy them in the spring time. Some towns have completely eliminated their dirt roads and I don't believe they regret it.

The other warrant article will be for a new dump truck with a dump body that has a built in chain and spinner assembly that has a front discharge and side dump. It is designed to go from hauling materials to sanding roads without installing a separate sander. With the front discharge it will be much safer as it distributes sand in front of the rear wheels.

With the freezing rain type winters we seem to be having, this type of unit will become very useful. We presently have a 1977 GMC sand truck that has a reliability problem and for the next couple years it would be used as a backup unit and to be used when conditions warrant all equipment available be used. We also would be able to use the truck for hauling as most hauling from the landfill to different projects takes quite a bit of time and we can use the extra truck to be as productive as possible. The truck as figured will also be equipped with a reversible front plow and frame, central hydraulics, 2 way radio, flashers and beacon lights.

I would like to thank the majority of townspeople for their support and cooperation in dealing with adverse road conditions and also thank the Selectmen, Linda, Cindy and Joanne at the town office, Police Department, Fire Department, Sue at the Pool and Mikko as Sexton for their help and cooperation.

I thank the town Highway Department employees for the effort and work done. The employees are Sulo Kolapakka, Dana Lawrence, Paul Tibbetts and Aaron Stacy.

Respectfully submitted,
Tom Saari, Road Agent

LANDFILL AND RECYCLING 1993 REPORT

The Landfill and Recycling Department with Bud Barry, George Leel and Dave Packard as the primary workers, has had a steady year. Not too much has been done for long term capital improvements, but a continuing goal to keep the area efficient and clean is being accomplished.

The most important work to accomplish this coming year is to remove the burned tire pile, as this is an eyesore and a liability. There will be a warrant article submitted to make sure this is accomplished and I strongly recommend we clean this up for good.

We thank the majority of townspeople for being conscious of the proper disposal of their rubbish.

Respectfully submitted,
Tom Saari, Road Agent

SOLID WASTE COMMITTEE

RECOMMENDATIONS REPORT - NOVEMBER, 1993

This is a summary of the report of the town Solid Waste Committee, which the Selectmen asked this year to update its 1989 recommendations. The Committee was asked to give special attention to the question of whether the town should adopt mandatory recycling.

The Selectmen appointed to the Committee Ruth Hathaway, Bill Hefler, Jeffrey MacGillivray, Fred Meshna and George Saari. Jeffrey MacGillivray continued as chairman.

BACKGROUND. The cost of handling solid waste will increase dramatically very soon. The nation and the state have decided that unlined landfills, such as the current New Ipswich landfill, have too often allowed contaminants to percolate into the ground water, and must be replaced by new, more environmentally sound disposal methods which will cost more.

REGULATIONS. New federal regulations, and new state regulations dictated by the federal regulations, will require the town to spend more on water tests at the landfill. Other effects of new regulations may be enormous, but cannot be estimated until new regulations, currently being rewritten and changed, are implemented.

RECYCLING COSTS. The Committee concludes that for a town the size of New Ipswich, recycling even at its most efficient saves little or no money compared to operating a transfer station and paying transportation and tipping fees to a modern solid waste facility. Inefficient operations sometimes do much worse.

The Committee concludes that for towns similar to New Ipswich, imposing "mandatory recycling" (generally, of at least aluminum cans, glass, newspapers, and plastic bottles) causes about half of the town's trash to be handled by private carriers.

The Committee recommends that the town continue to recycle materials even if the recycling cost exceeds the cost of transferring to a modern solid waste facility, but if recycling costs become prohibitive, this policy should be reviewed with the Selectmen.

MANDATORY RECYCLING. The Committee again recommends that recycling not be made mandatory.

RESERVE FUND FOR CLOSURE COSTS. The eventual closure of the

New Ipswich landfill, and water tests after closure, will probably cost between \$750,000 and \$1,000,000. Each year that the landfill continues to operate, some additional area is filled, adding to the town's eventual closure costs. To keep up with this accumulation of additional liability resulting from each year's new trash, the town should set aside each year about \$40,000 to \$50,000. Some of this money could be used for closure-related engineering studies, or for part of the current water test expenses.

CHARRED TIRES. The Committee recommends that the town get rid of its charred tires (remaining from the 1991 tire fire) via a 1994 warrant article.

HOUSEHOLD HAZARDOUS WASTE. The Committee recommends that the town provide some opportunity for residents to dispose of hazardous household products such as oil-based paint, paint thinners, solvents, and pesticides at least every two years. The town should investigate more efficient methods of collection than the traditional "household hazardous waste day."

The Committee also recommends that the town provide information regarding alternatives to household hazardous waste products in order to decrease the amount of household hazardous waste generated in the town.

FUTURE PLANS. After the 1991 water tests, it appears that neither the consulting engineers nor the State of New Hampshire have found the current New Ipswich landfill to be a current danger to its neighbors. It is also clear that the State of New Hampshire has found it necessary to close only a small fraction of the other unlined landfills in the state in the last three years. The relative speed with which the State has handled our paperwork, compared to other towns, is a clear indication that New Ipswich is nowhere near the top of their priority list.

While the next round of water tests may change our opinion, based on currently available information, the Committee recommends that New Ipswich close the existing landfill at the pace dictated by state and federal regulations, but that the town not make a decision to go faster than required.

Given the lack of enthusiasm in New Ipswich and neighboring towns, the Committee also recommends that the town not pursue other towns to bring their solid waste to a New Ipswich lined landfill.

The Committee further recommends that the town not spend money pursuing the option of constructing a lined landfill at the

present landfill site, unless there is good reason to believe that the lined landfill will be 40 percent cheaper than a transfer station. The Committee will continue to collect information when appropriate and available to determine whether this is a realistic possibility.

Respectfully submitted,
Jeffrey MacGillivray, Chairman

SOLID WASTE COMMITTEE

MINORITY REPORT ON RECOMMENDATIONS, NOV. 1993

Having closely followed the proceedings of the Solid Waste Committee, including the procedure used to collect and analyze data relating to solid waste disposal and recycling, I feel compelled to include information that hopefully will modify the general impression created by the Committee's report. While there is some question about the completeness and accuracy of the research performed by the Committee, I do accept the data as being reasonably accurate and useable for the purpose of making decisions about the best way for New Ipswich to handle its solid waste.

The above statement notwithstanding, I take serious exception to resolutions four through six in which the Committee recommends that no action be taken to either create incentives or to require recycling as a precondition for the use of the landfill.

While the report correctly states that "recycling saves little or no money compared to operating a transfer station and paying transportation and tipping fees to a modern solid waste facility", the logic not to adopt mandatory recycling based on this finding escapes me. From my point of view, if recycling costs no more than landfilling, then the logical action would be to recycle, since the end product of recycling becomes a resource rather than a contaminant.

The fact that this nation's present annual trash production falls between 160 and 180 million tons per year (taking up an area in excess of 30,000 acres annually), serves as a compelling argument for creating alternative methods of waste management. The recycling option offers a method that will reduce the landfill acreage, conserve resources and, as stated in the solid waste report, costs no more than is presently being spent on responsible landfilling.

To suggest that New Ipswich need not do its part to reduce the amount of landfilled trash simply because it is such a small part of the overall picture is at best irresponsible. The trash going into our landfill is our responsibility, and since the cost of packaging and transporting it to the door of industry is not unreasonable, I conclude that it is the right and the duty of our government officials to insist that public land not be used for such an unnecessary wasteful activity.

Special attention should be paid to the report's claim that New Ipswich has maintained a cost for recycling over the past four years that significantly exceeds the costs of landfilling in our "low-cost", unlined landfill. Attempting to compare recycling costs to the cost of landfilling under the present conditions in New Ipswich is futile, since the pollution factor undermines all attempts at estimating future costs of our present disposal. And, while the Chairman of the Solid Waste Committee argues that the items presently being considered for mandatory recycling holds little threat of pollution, he is overlooking a major factor involved in cleaning up a polluting landfill. The cost of cleaning a polluted landfill is a function of the volume of land to be cleaned. If a serious pollutant is detected in the leachate of a landfill, there is no way to deal with that pollutant by itself. All of the trash that is buried along with the polluting substance must be dealt with as well. Thus, it is incumbent upon us that landfilled trash be kept to a minimum.

It is also worth noting that, as is stated in the report, the cost of New Ipswich's recycling efforts exceed the costs that would be incurred if it were to transfer and tip into a lined landfill. This implies that New Ipswich's recycling effort is less efficient than towns such as Rindge and Swanzey where recycling costs do not exceed transportation and tipping costs.

The most logical conclusion to be drawn from this observation, given that the Committee has commended the current management of the landfill for a job well done, is that mandatory recycling is the missing ingredient in our recycling effort. Both Rindge and Swanzey have implemented mandatory recycling and have thus benefited from the most advantageous economies of scale. So, the point that our cost per ton of recyclables is higher than the average under our present voluntary system is simply another argument in favor of mandatory recycling.

The most significant problem I have with the Committee's vote on items four through six is that the sole consideration seemed to be short term cost. But, even when one considers only the differences in costs between recycling and landfilling, one must wonder why the Committee did not recommend that incentives be created for the recycling of steel and aluminum cans. The present costs of responsibly landfilling these two items exceeds the costs of recycling by approximately \$100/ton and \$500/ton respectively.

Indeed, there are those that say that this type of bookkeeping is nitpicking, and they may be right. I am confident that the overwhelming majority who voted to implement mandatory recycling in 1989 did not do so with the hope of realizing significant short term monetary savings. Having spoken personally to many New Ipswich citizens when I operated the recycling center in 1990, I can say with first hand knowledge that almost without exception the motivating factors were environmental not monetary.

It is my hope that the Selectmen take these points into consideration as they make their final decision on implementation of mandatory recycling.

Respectfully submitted,
Frederick Meshna

FIRE DEPARTMENT 1993 REPORT

This was a year of challenges, with a new fire chief, a new staff of officers, new policies and procedures, and new members--both men and women.

This past year the New Ipswich Fire Department membership showed over sixty percent (60%) certified to Level I or Higher Carrier Level, and nearly twenty percent (20%) more studying for Level I Certification. This training was conducted through New Hampshire Fire Service with guidelines set forth by the National Fire Protection Association (NFPA). Not only firefighting is studied, but approximately twenty-five percent (25%) of the membership is Nationally Registered Emergency Medical Technicians, and about ninety percent (90%) are trained in CPR. As you can see, many hours are spent training throughout the year. In 1994, Hazardous Materials training will be a priority and many topics used often will also be practiced.

Upon recommendations from the New Hampshire Municipal Association and New Hampshire Workman's Compensation Bureau, we are striving for compliance to NFPA 1500, which deals with firefighter health and safety. Everything is covered, from seatbelt usage to guarding against hepatitis "B" and bloodborne pathogen control to hazardous materials exposure.

I would like to give recognition to retired Fire Chief Robert Kincaid and his many years of service to the town and fire service.

When I was elected, I had a list of goals for the fire department, and at this writing we are moving forward to make those goals a success. Some goals can be more difficult than others, however, with the continued support of you the residents, and positive thinking, they will be attainable now and for years to come.

If you should have any questions or need information, call the fire dispatcher business phone line at 654-2424 and leave a message. The dispatcher will page the message to a fire officer and your call will be returned. An answering machine at the fire station will also record your name and number. This is checked regularly.

"SMOKE DETECTORS SAVE LIVES." Check yours regularly. Battery operated detectors should be tested. Here is a new fire safety tip in relation to daylight savings time: "Change your clock...change your batteries". This way you will always have

a fresh battery.

Emergency number from 878 numbers is 911. If calling from 924 numbers, still call 878-1611. Remember, do not hesitate. It is better to be called and not needed than needed and not called.

Thank you for your support.

Respectfully submitted,
Rick Hewitt, Jr., Fire Chief

FOREST FIRE WARDEN 1993 REPORT

1993 saw forest fire loss in New Ipswich to be very low. That was due to careful open burning by residents and the careful issue of burning permits.

We applied for, received and accepted some grant money for forest fire protection. This will be used for upgrading of firefighting equipment. The amount, though small, was \$330.00 and was matched by the town for the equipment.

To obtain a burning permit you may call the business phone line at the fire dispatch center (654-2424) and the warden or a deputy can return your call, or when the Town Office is open, the permit may be obtained there.

Briefly, the open burning laws are: no burning before 5:00 p.m. or after 9:00 a.m. unless it is raining, at which time you need a written permit. A written permit is not needed when the ground is completely covered with snow. However, you should notify the fire dispatcher on the business line.

Please follow Smokey Bear's safety tip:

Only YOU Can Prevent Forest Fires!

Happy 50th birthday, Smokey Bear!

Respectfully submitted,
Rick Hewitt, Jr., Forest Fire Warden

FOREST FIRE STATISTICS - 1993

EMERGENCY MANAGEMENT

1993 REPORT

The town of New Ipswich did well for itself during the blizzard of 1993 from March 13 through 17. On September 30, 1993 the town was under a tornado watch. A tornado watch indicates that conditions are right for a tornado to develop and that the sky should be watched.

Should you ever have to leave your home during an emergency, the main shelter in town is Boynton Middle School located on Turnpike Road. Should you leave to go to the shelter, you will need the following items: bedding or sleeping bags, baby food, baby diapers, baby medications; adults: heart and high blood pressure medication, insulin, prescription drugs, contact lenses and supplies, denture needs, extra eye glasses; entertainment: games (non-electrical), book.

Important family papers, keep these records in a water proof bag. No family pets or animals are to be brought to the shelter; leave them at home with food and water. The only exception to this are those animals that are used by special needs or disabled persons. Then you must bring their own food and bowls.

The American Red Cross will be in charge of the shelter which will also provide feeding to those staying in the shelter.

The Emergency Management office is seeking volunteers to receive training in first aid and shelter management through the American Red Cross, and volunteers to help on the Local Emergency Management Committee (LECP).

A copy of the town's emergency management plan is in the Emergency Management office, town office and New Ipswich Library.

Please call the Emergency Management office at 878-4515 or the town office at 878-2772 to volunteer.

Respectfully submitted,
William J. Edmonds, Director

PLANNING BOARD

1993 REPORT

Subdivision activity for 1993 picked up a little over that of 1992. The Planning Board held 45 public hearings, approved six subdivisions and two lot line adjustments.

Under the provisions of New Hampshire RSA 155E and the New Ipswich Excavation regulations, the Planning Board continued cataloging the town's sand and gravel pits. This is a continuing effort until all sand and gravel pits have restoration plans, or have been closed and restored. This is both a safety issue for the protection of abutters as well as a conservation issue.

Work continues on the Master Plan update. Due to the importance of this project, it is the subject of a separate report contained elsewhere within this town report. Please refer to it for more detailed information.

There was one change in the Board's composition this year. Neal Marshall was elected to serve on the Board after an absence of several years. We are pleased to have Neal join us again. Neal is replacing Warren Johnson who resigned. We wish to thank Warren for his years of tireless service. Nat Ober was re-elected for another three year term. Ed Morrill, George Mollignano, Oiva Anderson and Don Carlson remain on the Board. Joanne Meshna continues her able support of the Board as alternate member and secretary. We would be very hard put to do without her capable services.

We are in need of additional alternates and will gratefully consider anyone who may wish to volunteer.

The Board wishes to thank all the citizens of the town for their support in 1993. We hope our efforts continue to meet with your approval. As always you are welcome to attend any of our three meetings each month on the first, third and fourth Wednesday. We appreciate your suggestions and comments, which will always receive our attention and consideration.

Respectfully submitted,
Donald Carlson, Chairman

MASTER PLAN COMMITTEE

1993 REPORT

Master plans are written because they are required by state law. More importantly, they are written to give direction to those who take responsibility for the future of the town they live in. Master plans provide information, make projections, and establish guidelines. They do not prescribe; they do not mandate. They do, however, provide a basis for decision making. New Ipswich's first master plan was adopted in 1983.

Because master plans need to be updated, in 1991 the Planning Board appointed a master plan update committee. The update was undertaken as a two phase operation, the first phase to establish a detailed description of the town's topography. The town was divided into nine sectors with teams of local residents each responsible for mapping the topography of a sector. Over ninety individuals worked on this task. The result of their effort is a series of maps indicating in great detail what our town looks like and where its resources are located. The staff of Southwest Region Planning Commission computerized the data and produced digitized maps thus allowing for easy and inexpensive updating. New Ipswich was first in the southwest region to have town maps.

Phase two began a year ago. Phase one told us where we are; the goal of phase two was to tell us where we wanted to be. To help make this determination, a detailed questionnaire was developed and distributed to over 1,100 homes in New Ipswich. Again the task work was accomplished by local residents; forty-five volunteers worked on the development, distribution, tabulation, and analysis of the questionnaires. Special efforts were made to reach all areas of town and all interest groups. Those efforts resulted in 356 completed returns.

The Southwest Region Planning Commission has provided reports with local and regional data on such topics as population, housing, economic development, transportation, community facilities and land use. Those reports are an important part of the updated master plan and along with the results of the questionnaire have provided a basis for establishing the goals and objectives for New Ipswich for the next decade.

Over 150 residents have worked on this update. Without that involvement, the plan would have been far more costly and would have been far less reflective of who we are and of what we want for our town. The process followed in updating the plan was in itself valuable and important. It is our hope that the final product will be useful not only to town officials and agencies but for private individuals and

businesses--in fact, for everyone with an interest in New Ipswich.

Respectfully submitted,
Nat Ober, Chairman

CEMETERY 1993 REPORT

1993 spring clean-up ran a little late due to the heavy snows from last winter. With the help of all of my rakers, we finally got the job done. The Center Cemetery fence received a new coat of paint, due to the courteous young gentlemen who "volunteered" their labor. They did a pretty good job but I think they put more paint on themselves than the fence.

This year we had fourteen burials, nine burials at the Center Cemetery and five burials at the Smithville Cemetery. Again, I would like to thank the town Highway Department for all their help in the burials and ground work at the cemeteries plus Tom Saari who arranged the delivery of all the loam at both cemeteries in exchange for the sand used for the Mascenic track and field project. The loam was dearly needed.

The Center Cemetery received the most attention this year, due to the fact of its size and condition. The spring has been detoured to a new well which will be in operation for the Memorial Day planting of the flowers. The fence near the pond will be completed. We had to put in some more drainage to dry up this area.

The main road in Center Cemetery was paved by the Sullivan Brothers Paving and an excellent job it was. This road was in desperate need of repair. To answer any questions to why this road was paved--the monies used to pave the cemetery road did not come from the taxpayers pocket but from the Cemetery Maintenance Fund which is funded by the interest we received from lot sales. This maintenance fund can only be used for any maintenance on any town cemetery properties other than regular upkeep.

Respectfully submitted,
Mikko J. Salokangas, Sexton

ZONING BOARD OF ADJUSTMENT 1993 REPORT

During 1993 the Zoning Board of Adjustment (ZBA) received applications for 9 special exceptions, 1 variance, 2 appeals from an administrative decision and 1 application for a non conforming pre-existing use. As of the end of the year 9 special exceptions had been granted, 1 special exception had been withdrawn, 1 variance had been granted, 2 appeals from an administrative decision had been granted and 1 application for a non-conforming pre-existing use had been granted.

Because of a substantial increase in our work the ZBA now meets on the first and third Tuesdays of each month. We have also met on additional Tuesdays to accommodate the needs of the public. Please contact Joanne Meshna at the town office during regular working hours to make appointments with the ZBA and to get additional information about our procedures.

During this past year the ZBA has continued to learn more about the ordinances and rules we are required to act upon. Due to the efforts of Ned Nichols, I believe we have also improved our Rules of Procedure and application for a variance. We have also reached a greater understanding of what the ZBA is empowered to do and, perhaps more importantly, what we are not empowered to do.

Partially because of the fact that we are indeed still learning our jobs (and I hope will continue to do so) and improving on our procedures, we have had some contentious hearings and meetings this year. At times it has been unpleasant to do the things that we feel we need to do in the general public interest. However, I can assure the public that we are giving this work our best efforts, and I believe for the most part that the people we have dealt with, whether they agree with our findings or not, also believe that we are performing our jobs in the most honest manner possible.

I would like to thank all my fellow board members for their dedication and efforts this year, and would like to encourage more people to consider serving as members of the ZBA. Anyone interested in serving should contact the Board of Selectmen or the ZBA. All ZBA appointments are made by the Selectmen and any complaints (or positive comments) about the actions of the ZBA should be directed to the Board of Selectmen.

Respectfully submitted,
Doug Waitt, Chairman

CONSERVATION COMMISSION

1993 REPORT

There are four committees through which the work of the commission flows. Accomplishments this year have been due to the dedication of the volunteers, members and associates alike, who have so diligently worked on these committees.

1. The Pathways Committee has spent many Saturdays laying out and building paths. Turkey Hills now has a two mile trail down to Hoar Pond and back on the old Tote Road. Plans are underway to add another 13 miles and eventually link all parts of town to the Wapack Trail. We welcome all townspeople to participate in this program.

2. The Water Quality Committee works with the town health officer in monitoring streams for contamination. Samples are taken from bridges and taken to testing laboratories for analysis. We are hoping to start a cooperative with the high school in which science students will obtain samples, perform the laboratory tests and make the analysis. We will be working on incorporating this program with the state well head program with significant savings in state-mandated testing in our town public water supplies (schools, restaurants, factories, churches, offices, etc.).

3. Our Property Easement and Management Committee has been working with the new owners of the foreclosed golf course property adjacent to Turkey Hills in an effort to acquire permanent protection to all the land around Hoar Pond and an easement to provide a pathway to Ashby Road. Other pathways are planned where easements will be needed before any building of trails can begin. There may be significant tax savings to property owners giving easements. Please contact the town office if you are interested.

4. The Publicity and Public Relations Committee has put together our first publication, a pamphlet on the Turkey Hills park. The pamphlet is being prepared for printing and we expect it will be ready for distribution at town meeting in March. We could use someone on our Publicity/Public Relations Committee to help prepare future publications.

After years on the Conservation Commission, Mary Jane Grasty has decided to resign from active duty. During this period the Commission has grown in services to the town and recognition throughout the state because of her knowledge and dedication to conservation issues. She has worked with the state lawmakers and was the President of the New Hampshire Association of Conservation Commissions for four years. We

want to thank her for her contribution and hope she will accept an occasional call for help.

Respectfully submitted,
Ted Nussdorfer, Chairman

BUILDING PERMIT OFFICER 1993 REPORT

In 1993 there were 42 building permits issued with the breakdown as follows:

New single family homes	10
Additions to single family homes	15
Porches and deck add ons	7
Garages	7
Accessory and out buildings	<u>3</u>
	42

The Building Permit Officer is available on Monday evenings by appointment. Appointments may be made and forms can be obtained at the Town Office. All major changes to property require a site review prior to the granting of a building permit. This eliminates the legalities of being too close to property lines, etc. as we have experienced in the past.

Respectfully submitted,
Bruce Hamilton, Building Permit Officer

TREE WARDEN 1993 REPORT

The town of New Ipswich applied for the Small Business Administration Tree Planting Program grant in 1992 for work to be completed in 1993. It was a lot of work. I would like to take this opportunity to thank those who worked with me on the application. I thank Joanne Meshna for her long hours in its presentation, Frank Simpson for his designing and knowledge of tree species, Ted Nussdorfer, Margie Brown, and Bob Boynton for helping with the writing and the Board of Selectmen for giving me the opportunity to serve the town in this position.

In the spring of 1993, using \$4,000 of federal grant money, and \$2,000 of town funds, three tree planting projects were carried out using strict guidelines established by the Small Business Administration Tree Planting Program.

Thirty-one trees and shrubs were planted by landscape professionals at three locations. Eight Brioti Horsechestnuts in front of the fence at Center Cemetery, one Magyar Gingo, one Dr. Merrill Magnolia at the Police Station, five varieties of Crabapple, two species of Maple, three Amur Cork, and thirteen other species were planted at Memorial Park. Each species of tree and shrub were specifically selected for each site, considering space, soil and use, some to provide shade, others color and interest throughout each season, homes and food for wildlife, and an overall sense of beauty to our park and historic district. A special thanks to Sharon Rosenfelder, Paul Tibbetts, Mikko Salokangas, and Tom Saari for their help during the week of tree planting.

Newly planted trees need water for survival after planting for the growth of deep roots to anchor the tree well and make it more drought tolerant. Thirty-one individuals and families became Tree Guardians to one tree, watering their trees once or twice a week throughout the growing season. Without these volunteers these projects cannot succeed. With great appreciation I thank all of you and your families for making this commitment.

Tree planting will continue in 1994 in Memorial Park, our historic district and various locations throughout town. Tree Guardians will be needed for each new tree. If you would like to become a caretaker for a tree, please leave your name and number at the town office. Our town's community spirit throughout these projects has been the key to its success.

Respectfully submitted,
Valera Nichols, Tree Warden

POOL 1993 REPORT

The 1993 summer season started off with replacing the sealer around the pool deck. An ounce of preventative maintenance is worth a pound of costly repairs.

The opening of the facility went well, though, the infamous septic system made its annual presence known; in August it made it's last gasp and groan. The well water has been testing positive for certain undesirables for two seasons, specifically showing up late July and August. It is imperative that the existing septic system be replaced and that the well casing be reconstructed so that the facility is able to run safely and efficiently. If these problems are not solved the pool will not open for the summer of 1994. The poolhouse is in need of improvements to pass state safety codes and the basketball court is crying out for attention.

I would like to thank George Hopkins, Steve Lennon, Dan Kuusisto, Bob Kincaid and Mikko Salokangas for all their help this season.

I would also like to commend the pool staff for their team spirit which was energized by Pool Coordinator Grace Shaw. The success of the swim program was without a doubt due to the dedication and hard work of our Water Safety Instructors, Lori Groleau, Gretchen Moorman, Maiya Somero, Amy Somero, Israel Saari and their Water Safety aides, too numerous to list. The aides gave of their time voluntarily. The field activities were enthusiastically led by Maiya Somero and Justin Pelletier. The swimmers were safely watched over by the careful eyes of our lifeguards, Seth Hill, Selena Liubakka and Justin Pelletier. Our instructors also lifeguard after their daily lessons are finished.

We implemented a new class (Water Safety Instructor Aides) from the American Red Cross in the swim program this season, designed to get children interested in becoming instructors or lifeguards. It was a huge success.

With regret, Lori Groleau, Israel Saari, and Maiya Somero will not be returning for the 1994 summer season; they will be sorely missed. The entire pool staff wishes them well in their new endeavors.

The number of children actively involved with lessons doubled this summer. The Director of Educational Services from the American Red Cross sent us a letter of commendation. She is quoted as saying "I was extremely pleased with the operation

from the number of staff, the number of classes available to the people and the safety conditions adhered to. The enthusiasm and dedication of the Water Safety Instructors was noticeable and the amount of people serviced through the programs was commendable. I feel the little town of New Ipswich with one pool has been able to do a comparable job, if not better than some cities twice as large and with more pools at their disposal". In a day and age where inactivity leads to boredom and boredom leads to trouble, we as a community are very fortunate to have a town that has a facility that offers positive activities for our youth in the summer. The pool program has been growing to meet the needs for all ages. To keep this program alive and well we need your continued support.

The town pool had activities like the climb up Mt. Monadnock and Blueberry Ridge, Family Camp Out, Blueberry Pancake Breakfast, Pool Olympics, Cookie Contest and Dirt Eating contests. Also, there was aquaerobics, adult lap swim, polar bear swim and teen night.

The swim team had another successful season. They have been undefeated for three consecutive years. The success of these programs and activities are largely due to the enthusiastic and supportive involvement of the parents and community members.

With the community's continued support, dedicated instructors and lifeguards, our 1994 season will go swimmingly well!

Respectfully submitted,
Suzanne Baker-Hill, Pool Manager

PARKS AND RECREATION

1993 REPORT

The spring of 1994 will bring a new appearance for the lower field with the completion of the two dugouts. The foundations were installed by Eric Krook and True Form Foundations and the ground work was completed by the town Highway Department crew. My thanks for the help and a job well done.

The tennis courts will receive a little uplifting this year. The timer for the lights will be fixed and in working order along with some maintenance on the tennis nets.

The Ice Skating Rink Committee will be meeting in the month of January. This winter we will be working on the Center Cemetery pond and possibly the Kangas pond for community skating. Anyone interested in helping with this project, please feel free to stop by the New Ipswich Market for more details.

The 1993-94 Youth Basketball Program is still as strong as ever. With over 120 players playing this year, I am glad to see the interest is still there. I am thankful for the support of the community and the people who come out and help this program to become so successful every year.

To end this year's report, I would like to give Steve Lennon a big hand for keeping the town fields in tip-top shape and in helping to keep the area looking respectful. (Keep watering those trees Steve.)

Respectfully submitted,
Mikko J. Salokangas, Director

MEMORIAL DAY COMMITTEE

1993 REPORT

New Ipswich's Memorial Day services were conducted on Sunday, May 23, 1993. Participation by local veterans was very good.

In addition to large veteran turnout, we had participation from Hanscom Air Force Base. The U.S. Air Force supported us by furnishing us with a color guard and a guard dog team from Hanscom AFB. The color guard participated in our main parade and the dog training team put on demonstrations at the Barrett Mansion and at Memorial Field. We also had a unit of Battery "A" 1st BW 172nd field artillery (NHARNG) from Milford, NH, which also participated in our main parade and acted as an honor guard for the U.S. Air Force color guard. Both of these units added color and military pageantry to our services.

Bands participating in the ceremonies were the Mascenic High School band and the American Legion band from Post #48 of Hudson, NH. Mascenic High School band participated in both our Smith Village and downtown ceremonies. The Legion band conducted a band concert at the Barrett Mansion and participated in our main parade.

The committee would like to thank all who gave their time and services to make this day special. Committee members are: Hazel Cotzin, George Leel Sr., George Leel Jr., Kathy Allen, Bob Boynton, Dudley Cunningham, Pilar Hughes and Don Poirier.

Our guest speaker was Mr. Francis Gros Louis of Wilton, NH who is well known as a patriotic speaker and who is employed by the U.S. Department of Housing and Urban Development (HUD). His remarks were well received overall.

The parade marshall for this event was Sgt. Donald Poirier, USAF. The honorary parade marshall was Doctor Robert Shaw.

Respectfully submitted,
Edward F. Carter, Chairman

NEW IPSWICH LIBRARY 1993 REPORT

The New Ipswich Library presently has 14,632 volumes: fiction - 5188, non-fiction - 4533, juvenile - 4911 and video cassettes - 187.

The library also subscribes to 25 magazines and 2 newspapers. In 1993 there were 1005 cardholders, checking out over 17,819 items. This is an increase of 22% over the last five years.

Capital improvements at the library are almost completed. The trustees are proud that the library building continues as an attractive part of New Ipswich's center. A quiet reading area has been established as well as a children's area. The New Ipswich Historical Society and the Central-Appleton P.T.A. have used the library for appropriate functions.

Public and private school use of the library continues as several classes attend on a regular basis. Students listen to stories and select books for classroom use. Teachers are allowed free access to the library's resources. There is also a weekly story hour for pre-school children. This is run by volunteers and is held on Tuesdays from 10:30 to 11:30. The library is also improving its research facilities for older students. Of special interest are the several volumes of town history.

1993 was the seventh year that a summer story hour was provided. Over these years several hundred children have attended and participated in crafts, songs and various activities.

The Friends of the Library committee continues to provide valuable service to the library. This year they assisted in maintaining the card catalog, arranged an "Author's Night", and put up special holiday decorations. Their meetings are held at 3:00 on the second Wednesday of each month. Anyone interested in helping the library is encouraged to attend.

Library hours are Monday and Wednesday 2:00 p.m. to 8:00 p.m., Tuesdays and Fridays, 9:00 a.m. to 1:00 p.m., phone 878-4644. Librarian: Anne L. Soini, Assistant Librarian: Ann-Marie Howard; Custodian: Burton Lund.

The Board of Trustees thanks the town of New Ipswich for its support and welcomes all suggestions. The Board also notes, with regret, the resignations of Roberta Combes, Eric Krook and Kana Riley. Their contributions will be missed. New members Carol Romeril, Paula Girard and Bruce Hamilton join

fellow trustees Harvey Green, Richard Hall, Greg Hanselman, Diane Kangas, Earl Somero and Carol Snell.

Respectfully submitted,
Carol Snell, President

WELFARE ADMINISTRATION 1993 REPORT

1993 began as 1992 ended with a relatively mild number of requests for assistance. But as spring and summer approached the number of requests increased due to the economic factors at that time. Once again it levelled out in the fall and winter months.

Again I would like to remind people that they must not wait until the last minute when problems arise before requesting assistance. If there is a legitimate need we are here to help but we have to know about the situation.

I am happy to report that we were reimbursed either through working or in dollars for a sizable amount. Applicants are required to sign a statement regarding payment by either working or a flexible payment plan. Many preferred working since it was the practical way to reimburse the town plus a number of things were accomplished which the various departments might not have been able to do.

Once again I would like to thank the departments for their cooperation in 1993. Also I would be remiss if I did not thank the town office staff for all of their help.

Respectfully submitted,
George H. Lawrence, Welfare Administrator

HOME HEALTH CARE AND COMMUNITY SERVICES, INC.

REPORT TO THE TOWN OF NEW IPSWICH
JANUARY 1, 1993 to DECEMBER 31, 1993

In 1993, Home Health Care and Community Services (HCS) continued to provide home care and community services to the residents of New Ipswich. The following information represents a projection of HCS' activities in your community in 1993. The projection is based on actual services provided from January through December 1993 and an estimate of usage during October, November and December.

SERVICE REPORT

<u>SERVICES OFFERED</u>	<u>SERVICES PROVIDED</u>	<u>SERVICES SUPPORTED PARTIALLY OR TOTALLY BY THE TOWN</u>
Nursing	472 Visits	9 Visits
Child Health Nursing	20 Visits	20 Visits
Physical Therapy	172 Visits	0 Visits
Speech Pathology	15 Visits	0 Visits
Occupational Therapy	31 Visits	0 Visits
Medical Social Work	11 Visits	2 Visits
Outreach	15 Visits	0 Visits
Nutritionist	7 Visits	5 Visits
Home Health Aide	463 Visits	95 Visits
Homemaker	272 Visits	272 Visits
Child Health Program	22 Children	22 Children

Total Unduplicated Residents Served: 69

FINANCIAL REPORT

The actual cost of all services provided in 1993 with all funding sources is projected to be \$106,699.56.

These services have been supported to the greatest extent possible by Medicare, Medicaid, other insurances, grants and patient fees. Services that were not covered by other funding have been supported by your town.

For 1994, we recommend an appropriation of \$4,000.00 to continue home care services at the current level.

Thank you for your consideration.

SOUHEGAN VALLEY AMBULANCE SERVICE, INC.

1993 REPORT

The year 1993 has been extremely busy for Souhegan Valley Ambulance Service. With an increase of 17.5% in call volume the service has averaged more than one call for every day of the year, with a total call volume of 431.

As always, the attendants have spent many hours attending continuing education programs both at our location and at conferences outside the area. The total manhours spent by the attendants attending our own in house training sessions for 1993 was over 450. This does not include EMT or CPR refresher courses, both of which are requirements for EMT recertification. In addition to this, the attendants have volunteered well over 2500 manhours involved in calls made.

Over 90% of our present attendants are EMT's. We have six attendants functioning at the EMT-Intermediate level and one more attendant has completed the EMT-Intermediate training and is awaiting results of the National Registry exams. We also have nine attendants who are trained in the use of the Esophageal Obturator Airway. Four attendants have completed the American Heart Association CPR instructor program and three more are in the process of completing the program. We hope to soon be able to offer CPR training for citizens in the communities that Souhegan Valley Ambulance services.

This year the patient compartment of our oldest ambulance was overhauled and placed on a new Ford chassis. Both of our patient units are now over 20 years old (the chassis for each vehicle has been replaced every ten years) and our next rotation will probably require replacement of the entire vehicle (chassis and patient compartment).

Much effort continued through 1993 by the attendants and Board of Directors both raising funds for and working on completion of our new building. We are very fortunate that the Mascenic Youth Summer Employment Program provided many hours of labor during the summer doing both finishing work inside and labor intensive landscape work.

During 1993 the Mason Board of Selectmen announced their decision to change ambulance service from Souhegan Valley Ambulance to Brookline Ambulance. This change took place on December 13, 1993 with the option that Mason could choose to contract service from Souhegan Valley Ambulance after town meeting in March 1994.

With Mason's planned departure the remaining towns of Greenville, New Ipswich and Temple are being asked for an increase to cover the operating budget of the Service. If Mason should decide in March to again contract with Souhegan Valley Ambulance for service, the money received from Mason would be apportioned to the other towns accordingly.

Souhegan Valley Ambulance Service's budget for 1994 shows an overall increase of \$3,650.00, but the Service has returned \$4,000.00 of money raised by donations and fund raisers to be used to reduce the cost to the towns.

The Service is always seeking new volunteers who can commit time as attendants. We have a special need for attendants who are available during the daytime.

We wish to thank the many people and businesses who have shown their support, both moral and monetary, over the past years. We hope that our new building will finally be completed by the Spring of 1994, at which time we plan to hold an open house so that everyone can see the results of what has been a truly community project.

Respectfully submitted,
David Dow, Chairman
Board of Directors

SAFETY COMMITTEE

1993 REPORT

Under the direction of Selectman George Lawrence, a Safety Committee for the Town of New Ipswich was introduced. The Committee consists of one employee from each Town Department. members include: Cindy Morris - Town Office; Denise Lawler - Police Dept.; Sulo Kolapakka - Highway; Grace Shaw - Pool; Mikko Salokangas - Cemetery; David Packard - Landfill and Dean Navarolli - Fire Dept.

The Committee has had several meetings to discuss the safety issues within the work place. We try to develop solutions to make the work place a safer place to be for not only the employee but also for the citizen. Members of the New Hampshire Municipal Association, Ken Ward and Dave Crane of Worker's Compensation have been present at out meetings to inspect our town buildings and give us guidance and advise us of the safety issues we may overlook. We have inspected most of our town buildings with the exception of the Town Office and Emergency Management. The meetings have been very beneficial and helpful. A copy of the minutes are given to each Department Head so he/she is aware of the safety issue existing in the building which he/she occupies. It is then hi/her duty to take the direction of the Safety Committee and improve the work place with the ideas given by the committee; or other ideas he/she may have which will solve the issue.

The Committee had a late start, but we accomplished a lot in the amount of time we had. In 1994 we hope to follow-up on the safety issues discussed prior and be sure avenues have been pursued to solve them; along with completing the inspections of the Town Buildings which we were not able to inspect this year.

Respectfully submitted,
Denise Lawler, Secretary
